KOV 0825

The Kia EV5.
An effortless transition to the world of EVs.

A seamless union of contemporary flair and refreshing practicality, the Kia EV5 puts proven EV technology comfortably within reach. Bold yet pragmatic. Streamlined yet roomy. It's the perfect life partner for the modern world.

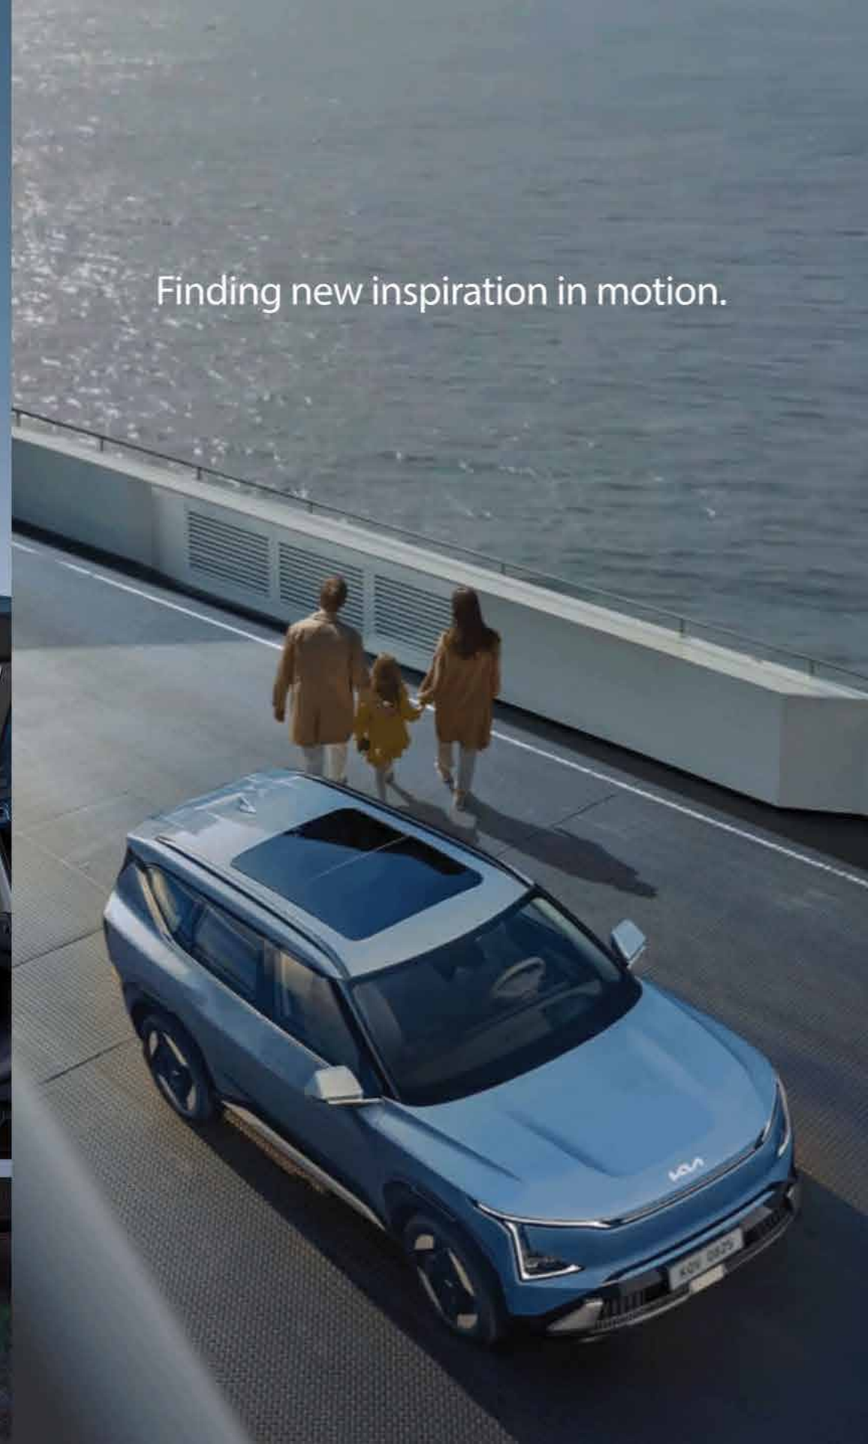
Powering new possibilities.

Lifting dreams to new heights.

Finding new inspiration in motion.



Interior

Technology at your fingertips.

Surrounded by clean lines, soothing mood lighting, and an uncluttered dashboard, EV5 owners will enjoy an intuitive and immersive driving experience thanks to the single, wide panoramic display and simple set of touch controls.

Head-up display (HUD)

A large, high-definition 12″ head-up display projects key driving information from the cluster and navigation system onto the windshield.

Column-type electronic shift lever

Switch between Drive, Neutral, Reverse and Park with steering column-type electronic shift lever controls conveniently located next to the ignition start-stop button.

Fingerprint recognition

Enjoy improved convenience and security by loading your personalized settings. You can even start the engine when you've forgotten your keys.

Touch buttons

The infotainment system features touch-type haptic buttons that are seamlessly integrated into the center fascia.

12.3″ Cluster

5.3″ Climate Controls

12.3″ Infotainment Controls

The spacious and sophisticated interior is accentuated by the wide, uninterrupted integrated display featuring a 12.3-inch cluster and split-screen infotainment system. Controls are conveniently at your fingertips.

Click for detailed view.

Panoramic wide display

Mood lamp

Choose from 64 different colors and fill the cabin with an ambient glow that matches your mood. The LED lighting circles the front seating area, running along the door trim and across the dashboard, to create a refined and comforting atmosphere.

Relaxation massage seat

Feel less fatigued while driving with 4-way lumbar support and a leg rest. While parked, the relaxation massage feature uses six air cells to apply soothing pressure, with four different modes and three intensity settings.

Class-leading space and flexibility.

The Kia EV5 is a fully capable SUV with ample cargo space accessible through the wide rear opening. Seats fold flat for loading or relaxing, while its versatile layout lets you accommodate the right balance of people and cargo.

Cargo capacity

2nd row 60:40 folding

2nd row full-flat folding

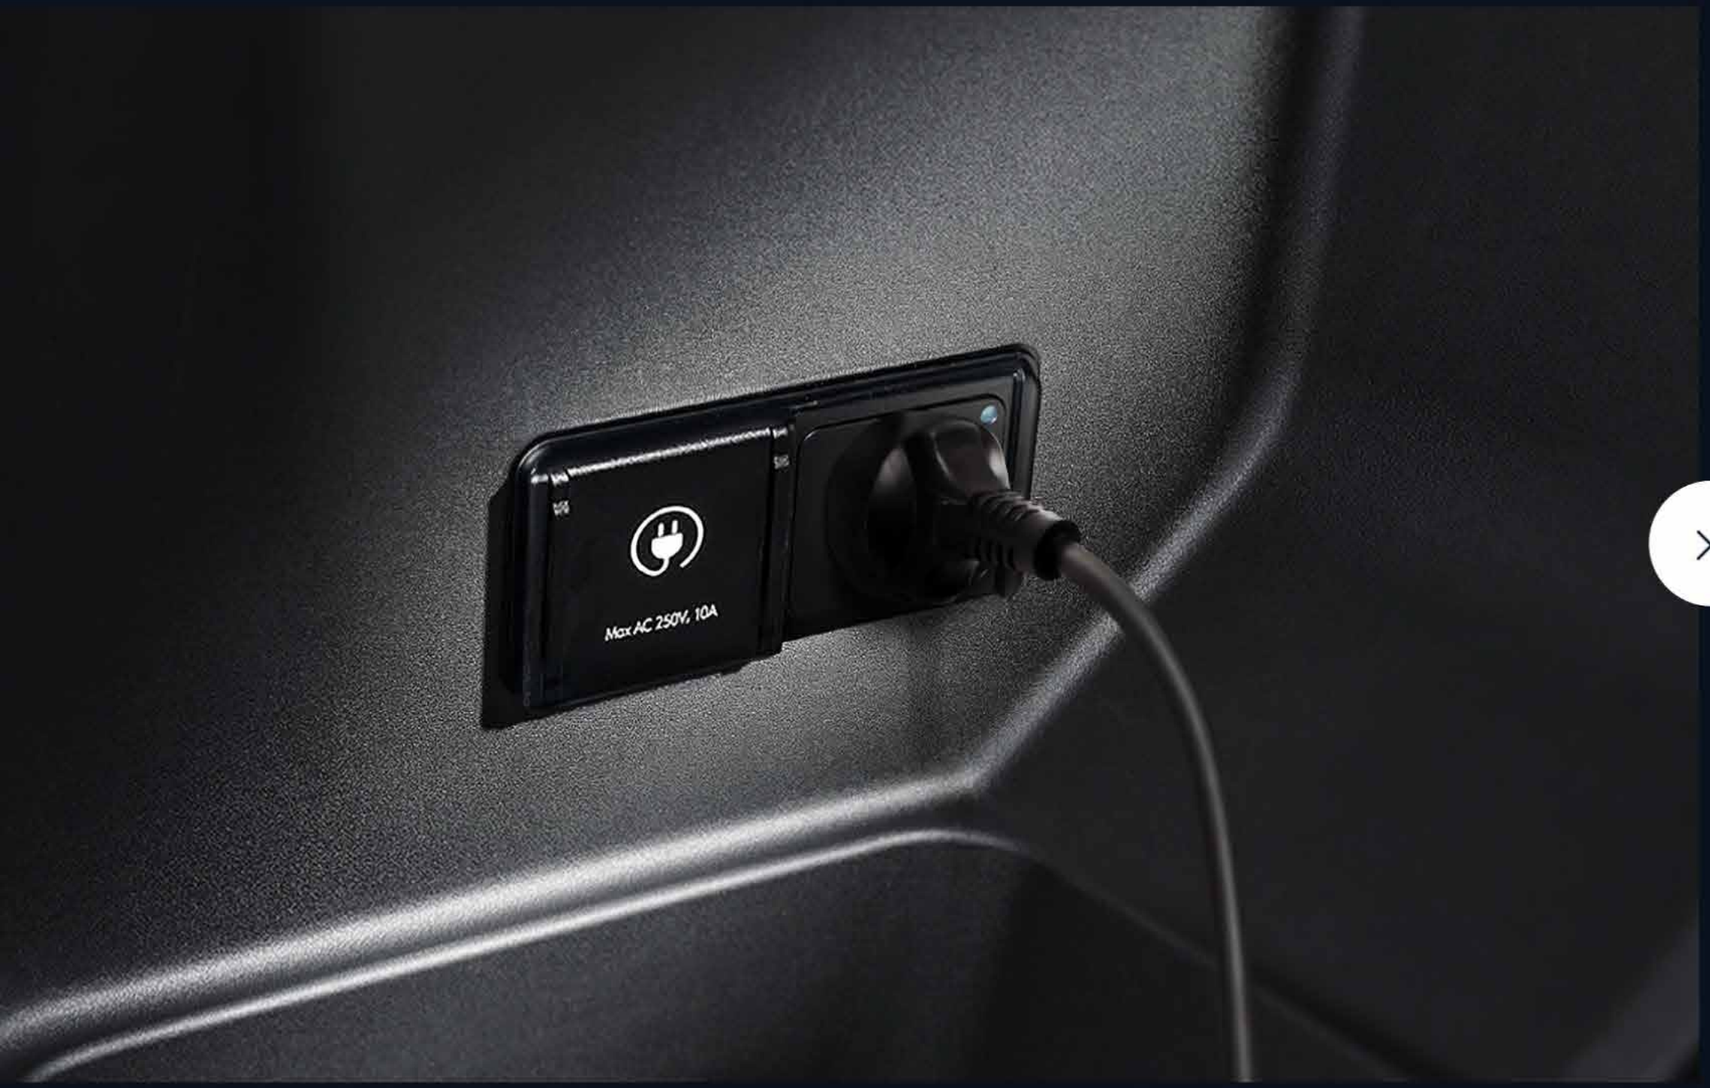
Fold and dive the seats and remove the extension board behind them for full-flat folding. The flat surface is ideal for loading cargo or serving as a bed when on outdoor adventures.

Convenience

Everything in its place.

The versatile cabin design gives you endless possibilities for stowing away items and ultimate convenience when resting or enjoying the outdoors. The layout is simple and clean, but a closer look reveals a surprising number of storage spaces and functional details.

*some features may vary across regions.



Interior V2L (Vehicle-to-Load) outlet

Power appliances like refrigerators and TVs, and charge phones and devices using the V2L outlet in the cargo area, without depleting the vehicle's battery.

Cargo space luggage hooks & storage bins

In the rear cargo area, multi-use hooks let you hang smaller hand luggage, or shopping bags that could otherwise roll or tip over. You can also conveniently stow away items in the storage spaces on the left and right sides of the cargo area.

Multi-purpose table

Pop the rear luggage shelf upward and it can be used as a picnic table, a privacy cover for objects stored below, a support for tall objects, or even a shelf to stack things on (max. 12 kg load).

3 / 0:03

Front trunk

The 67-liter front trunk can store several items discreetly out of view of vehicle occupants.

2nd row seat table

A fold-down table mounted on the back of the front seat lets the rear seat passengers snack, study, or be entertained while on the move. The table includes an iPad slot, and electronic devices can be charged using the USB port located on the seat molding.

Smart charging door

Exterior V2L (Vehicle-to-Load) outlet

Discover the Kia EV5's fast and convenient charging using either 400V or 800V changers, without the need for an adapter.

Charging

Click for detailed view.

Smart charging door

Exterior V2L (Vehicle-to-Load) outlet

The smart charging door on the right front fender opens when pressed, with lighting inside for added convenience. The door closes by pressing the button just below the state-of-charge indicator display. The external V2L adapter also uses the same port.

Charging

Click for detailed view.

Smart charging door

Exterior V2L (Vehicle-to-Load) outlet

An external V2L gender adapter lets you power a range of electronic devices through the EV5's charging port. An indicator on the infotainment screen lets you know when the discharge will automatically stop according to the driver-set battery capacity needed for driving.

Safety

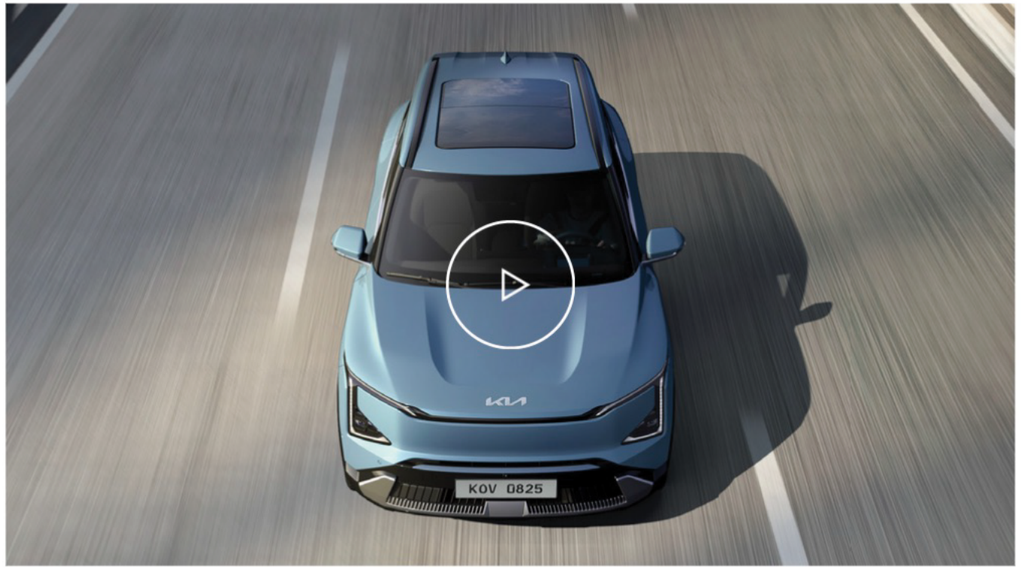
It's reassuring to know that someone is always looking out for you. Kia's advanced driver assistance systems enhance safety and convenience while driving, as well as while parking.

Forward/Side/Reverse Parking Collision-Avoidance Assist (PCA)
helps avoid collisions with pedestrians and objects while parking or exiting.
If the risk of a collision persists after initial warning, PCA automatically assists with emergency braking.

Shift by wire
If the vehicle turns or in gear other than P of the driver's door opens when the vehicle is in ON position the gear automatically shifts to P for safety.

Safety

Forward Collision-Avoidance Assist 2 (FCA 2) monitors your surroundings and warns you if it detects a risk of collision with a vehicle, pedestrian or cyclist ahead. If the risk persists, or if a risk of collision with oncoming vehicles while turning left at an intersection is detected, FCA 2 automatically assists with emergency braking. It also warns if the risk of collision with a vehicle, a pedestrian, or a cyclist close to the front edge of the vehicle is detected and automatically assists with steering if the driver operates the steering wheel to avoid collision.



Lane Following Assist (LFA) helps you center the vehicle in the lane while driving by using the front view camera to help guide the steering based on lane markings or the car ahead.

Safety

Smart Cruise Control (SCC) helps you maintain a safe distance from the vehicle ahead at the speed you set. If the vehicle ahead stops abruptly, the EV5 automatically stops and then resumes acceleration. After a longer pause, pressing the accelerator pedal or the +/- switch will start the vehicle moving forward again.

Blind-Spot Collision-Avoidance Assist (BCA) warns you if there is a risk of collision with a rear-side vehicle in the blind-spot while changing lanes. BCA also automatically assists with emergency braking when forward exiting a parallel-parking spot if there is a risk of collision with a vehicle approaching from behind.

Movement that inspires

At Kia, we believe movement inspires ideas. Great ideas come to you when you're on the move. Whether you're walking, traveling on a train or driving. It's why we create the spaces and the time you need to bring ideas to life.

All information, illustrations and specifications are accurate at the time of printing and are subject to change without notice. The models and specifications shown in this brochure may vary from those available in your market. Contact your local Kia dealer for current information and full warranty details including terms and conditions.

Driving range is determined according to the standardized EU measurement procedure (WLTP). The individual driving style and other factors, such as speed, outside temperature, topography and the use of electricity-consuming devices, have an influence on the real-life range and can possibly reduce it.

Movement that inspires
